EXPERIENCE

Front End Developer | Mefth   Remote   10/2022 - 12/2022

- Coded using HTML, CSS, JavaScript and React js to develop features for both mobile and desktop platforms.
- Designed and updated layouts to meet usability and performance requirements.
- Made recommendations for new technology integration based on suitability and alignment to business goals.
- Develop new user-facing features and define the appearance and functionality of the site
- Bridge the gap between graphic design and technical implementation
- Validate input before submitting to the back end.
- Addressed and fixed complex bugs.
- Coded software updates and alterations based on detailed design specifications.
- Planned, developed, tested, deployed and maintained web applications.
- Worked well independently and within a team setting.

Software engineer | Flairstech   Cairo, Egypt   04/2021 - 12/2021

- Assisted in requirements analysis, High Level Design, Low Level Design, and complex code development for 15+ applications.
- Provided technical direction and system architecture for 50+ individual initiatives.
- Attended 20+ weekly standup meetings to receive weekly tasks and mentorship from senior developers
- Collaborated with external programmers to coordinate delivery of 6 new software applications.
- Implemented and updated application modules under the direction of Senior Software Developers.
- Collaborated productively with the product team to understand requirements and business specifications around portfolio management, analytics and risk.
- Developed and presented findings and solutions to audiences including senior executives and stakeholders.
- Followed policies and procedures related to application methods and quality standards at all times.
- Effectively translated client requirements into application designs and systems requirements.

Business Owner/Operations manager | Farhana English Community   Cairo, Egypt   11/2019 - 03/2021

- Managed day-to-day business operations.
- Recruited teachers and students to increase our impact and provided guidance to teachers and students.
- Started with 20 students and 4 teachers, in one-year increased enrollment to 200+ students and 30 teachers.
- Trained and motivated employees to perform daily business functions.

Junior web developer | CLS Learning solutions   **Cairo, Egypt**   **03/2019 - 10/2019**

- Worked as a productive and positive team member to design, code, test, report, and debug operations.
- Managed front-end and back-end development in the company's Portfolio Analyst, Employee Track, and Account Management systems.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.
- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Evaluated and became knowledgeable in new standards, technologies, and trends in website development.
